

Devpost Hackathon Manual

Hello and welcome to ViTAL Hacks! This user guide will aid you in using Devpost, the website this hackathon is hosted on. Here you will find information about how to create a Devpost account, join your team, submit your project and visuals, and view the work of your peers!

- 1. Sign up Process:** Go to Devpost.com and create an account - please log in to an existing account if you have already created one in the past.
- 2. Register for the hackathon:** Navigate to this link: <https://vital-hacks.devpost.com/>
And select “Register for this hackathon”
- 3. Start your Project:**
 - a. On the main overview page of the hackathon, navigate to the sidebar and select “Start Project”

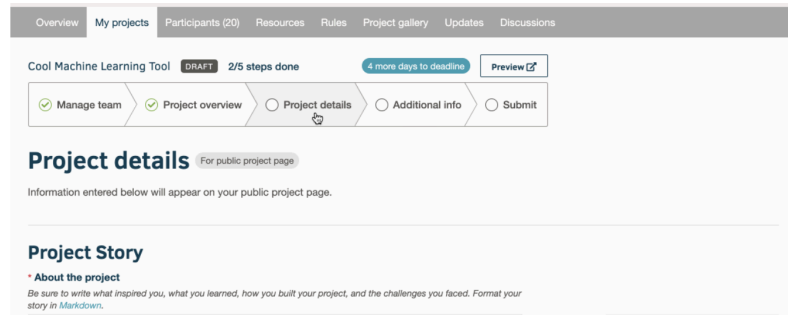

- b. **Manage Team:** The team leader can invite group members via an invite link, or add team members using their emails

Invite your team
Either share the link below with your teammates or send an invite link via email

- c. **Project Overview:** Come up with a project name, tagline and brief description

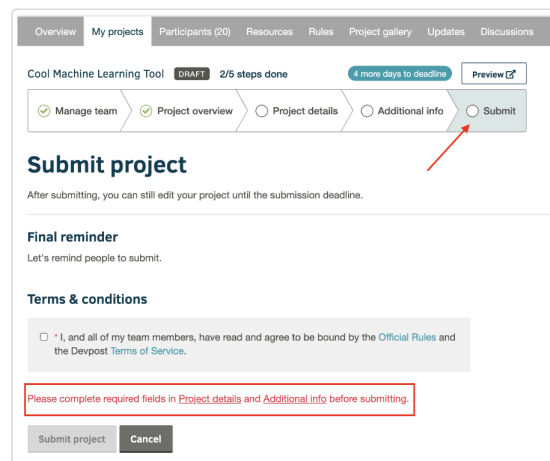

A screenshot of the Devpost 'Project overview' form. The form has a progress bar at the top showing '1/5 steps done'. The 'Project overview' step is selected. The form includes fields for 'Project name' (80 characters left) and 'Elevator pitch' (200 characters left). There is a 'Save & continue' button and a 'Cancel' button. A sidebar on the right shows a preview of the project details.

- d. **Project Details:** Give a detailed description of what your project entails, including your interpretation of the problem, the technology used such as language and project framework, and a link to the Github repository used. Additionally Submit a link to your video demonstrating your code functionality (YouTube, Vimeo), and any visualizations as images.

The screenshot shows the 'Project details' step of a submission process. At the top, there's a navigation bar with tabs: Overview, My projects (selected), Participants (20), Resources, Rules, Project gallery, Updates, and Discussions. Below this, the project name 'Cool Machine Learning Tool' is displayed with a 'DRAFT' status, '2/5 steps done', and a '4 more days to deadline' timer. A progress bar shows five steps: 'Manage team' (checked), 'Project overview' (checked), 'Project details' (selected), 'Additional info', and 'Submit'. The 'Project details' section is titled 'Project details' with a link 'For public project page'. It contains a text area for 'Project Story' with a prompt: 'About the project. Be sure to write what inspired you, what you learned, how you built your project, and the challenges you faced. Format your story in Markdown.'

- e. Continue to the Submit tab to complete your submission by accepting the terms and conditions

The screenshot shows the 'Submit project' step. The navigation bar is the same. The progress bar now shows 'Submit' as the selected step. The 'Submit project' section has a note: 'After submitting, you can still edit your project until the submission deadline.' Below this is a 'Final reminder' section with the text 'Let's remind people to submit.' and a 'Terms & conditions' section with a checkbox: 'I, and all of my team members, have read and agree to be bound by the Official Rules and the Devpost Terms of Service.' A red box highlights a message: 'Please complete required fields in Project details and Additional info before submitting.' At the bottom are 'Submit project' and 'Cancel' buttons. A red arrow points to the 'Submit' button in the progress bar.

- f. Here is a link for a detailed submission guide:
